

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY JULY 9, 1997 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION: Initial attack activity increased in the Great Basin, Rocky Mountain and Southwest Areas. The Eastern Great Basin reported one new large fire. Containment objectives were attained on the Hemlock fire in southern California. Fire indices remain very high to extreme for numerous units throughout the southern half of the West.

ALASKA LARGE FIRES:

INOWAK, Southwest Area Forestry, Alaska State. A Type II Incident Management Team (Kechter) is assigned. This fire in southwest Alaska is threatening the villages of Sleetmute, Red Devil and Stony River. Winds are pushing the fire towards the villages. The Team met with villagers and began treating fuels and setting up pumps and hose around the villages. Black spruce and hardwood fuels lay between the fire and the villages.

GOLD CREEK, Fairbanks Area Forestry, Alaska State. A Type II Incident Management Team (Wehking) is assigned. This fire is 15 miles north of Fairbanks near the Fort Knox Gold Mine. The fire received early morning rain yesterday, enabling crews to mop-up 50 feet inside the perimeter. Direct attack methods will be utilized. Plans are to release two crews today.

BUTTE CREEK, Fairbanks Area Forestry. Early morning showers slowed fire activity temporarily. Seventeen homes and cabins have been prepared for burnout operations. Pumps and hose have been installed. Acreage decrease is due to better mapping.

CAMP LAKE, Tok Area Forestry, Alaska State. This fire is between Tok and Northway. Crews continued to made good progress on the south and west flanks. Work remains on the east flank.

BDF = San Bernardino NF.

OUTLOOK:

An upper trough and associated cold front remains over Alaska, producing unstable conditions throughout the interior. Clouds, scattered showers, and isolated thunderstorms are forecast for this area. Coastal temperatures will be in the 50's, with interior highs reaching the 60's and 70's.

California will continue to be warm and dry, with locally gusty afternoon winds. Isolated afternoon dry thunderstorms are possible over the central and southern Sierras. Temperatures will range from the 60's along the coast to 110 in the valleys and deserts.

Hot temperatures, dry conditions, and sunshine will dominate Arizona. Isolated dry thunderstorms are possible for the east-central and southeast mountains. Mountain temperatures will be in the 70's and 80's, with desert highs climbing to 110.

Colorado and New Mexico will have partly cloudy skies and scattered afternoon thunderstorms, especially over the mountains. Temperatures will range from the 60's and 70's in the mountains, to the 80's and 100's in the lower elevations.

Nevada will be partly cloudy with a chance of afternoon dry thunderstorms. Northern temperatures will be in the 80's and 90's, with southern desert temperatures reaching the 100's.
